# Training for Drone Manufacturing Assembly Test & Flying

[www.tahdco.com](http://www.tahdco.com)

## Introduction

TAHDCO provides various Skill based training program for the students who belongs to SC/ST categories. Now it has been proposed to offer free skill Training in Drone Manufacturing Assembly Test & Flying it offers how to Manufacture and Assemble a Drone. It imparts knowledge of drone parts and components and the principles of flying applied to the drone technology. It takes the technician through the process of understanding the setting up of drone parameters through the use of a simulator. It also imparts the knowledge related to performing testing and quality check on the drone prior to dispatch and commissioning of the Drone.

## Evaluation

1

Course Duration: 15 Days /120 Hrs(Theory & Practical)

2

Age Limit: 18 to 35 Years

3

SC/ST Candidate Only

4

Qualification: Any Degree/ Diploma Candidates

5

Training Cost: 7,500/- (Exclusive of Food & Accommodation)

## Outcomes

- At the end of the program, the Learner should have acquired the listed knowledge and Skills
- Demonstrate the basic flying physics and motions of the drone using a simulator
- Explain the process of assembling/disassembling different types of Drones
- Explain the process of testing a Drone for correct functioning after assembly
- Explain the process of manufacturing and deploying a Drone
